## BEFORE 2004

Passionate about civil aviation for many years, the manager has forged strong ties through his experiences with the world of aeronautics and has decided to create his own company.

ISNL Aerospace was created in 2004 and is specialised in the intermediation and trading of new and used materials,

equipment and spare parts for the aerospace and defence sector. The company is accredited by the Délégation Générale de l'Armement (DGA), a department of the French Ministry of Defence.

ISNL Aerospace has positioned itself as a major player in the French aviation market and across the world.

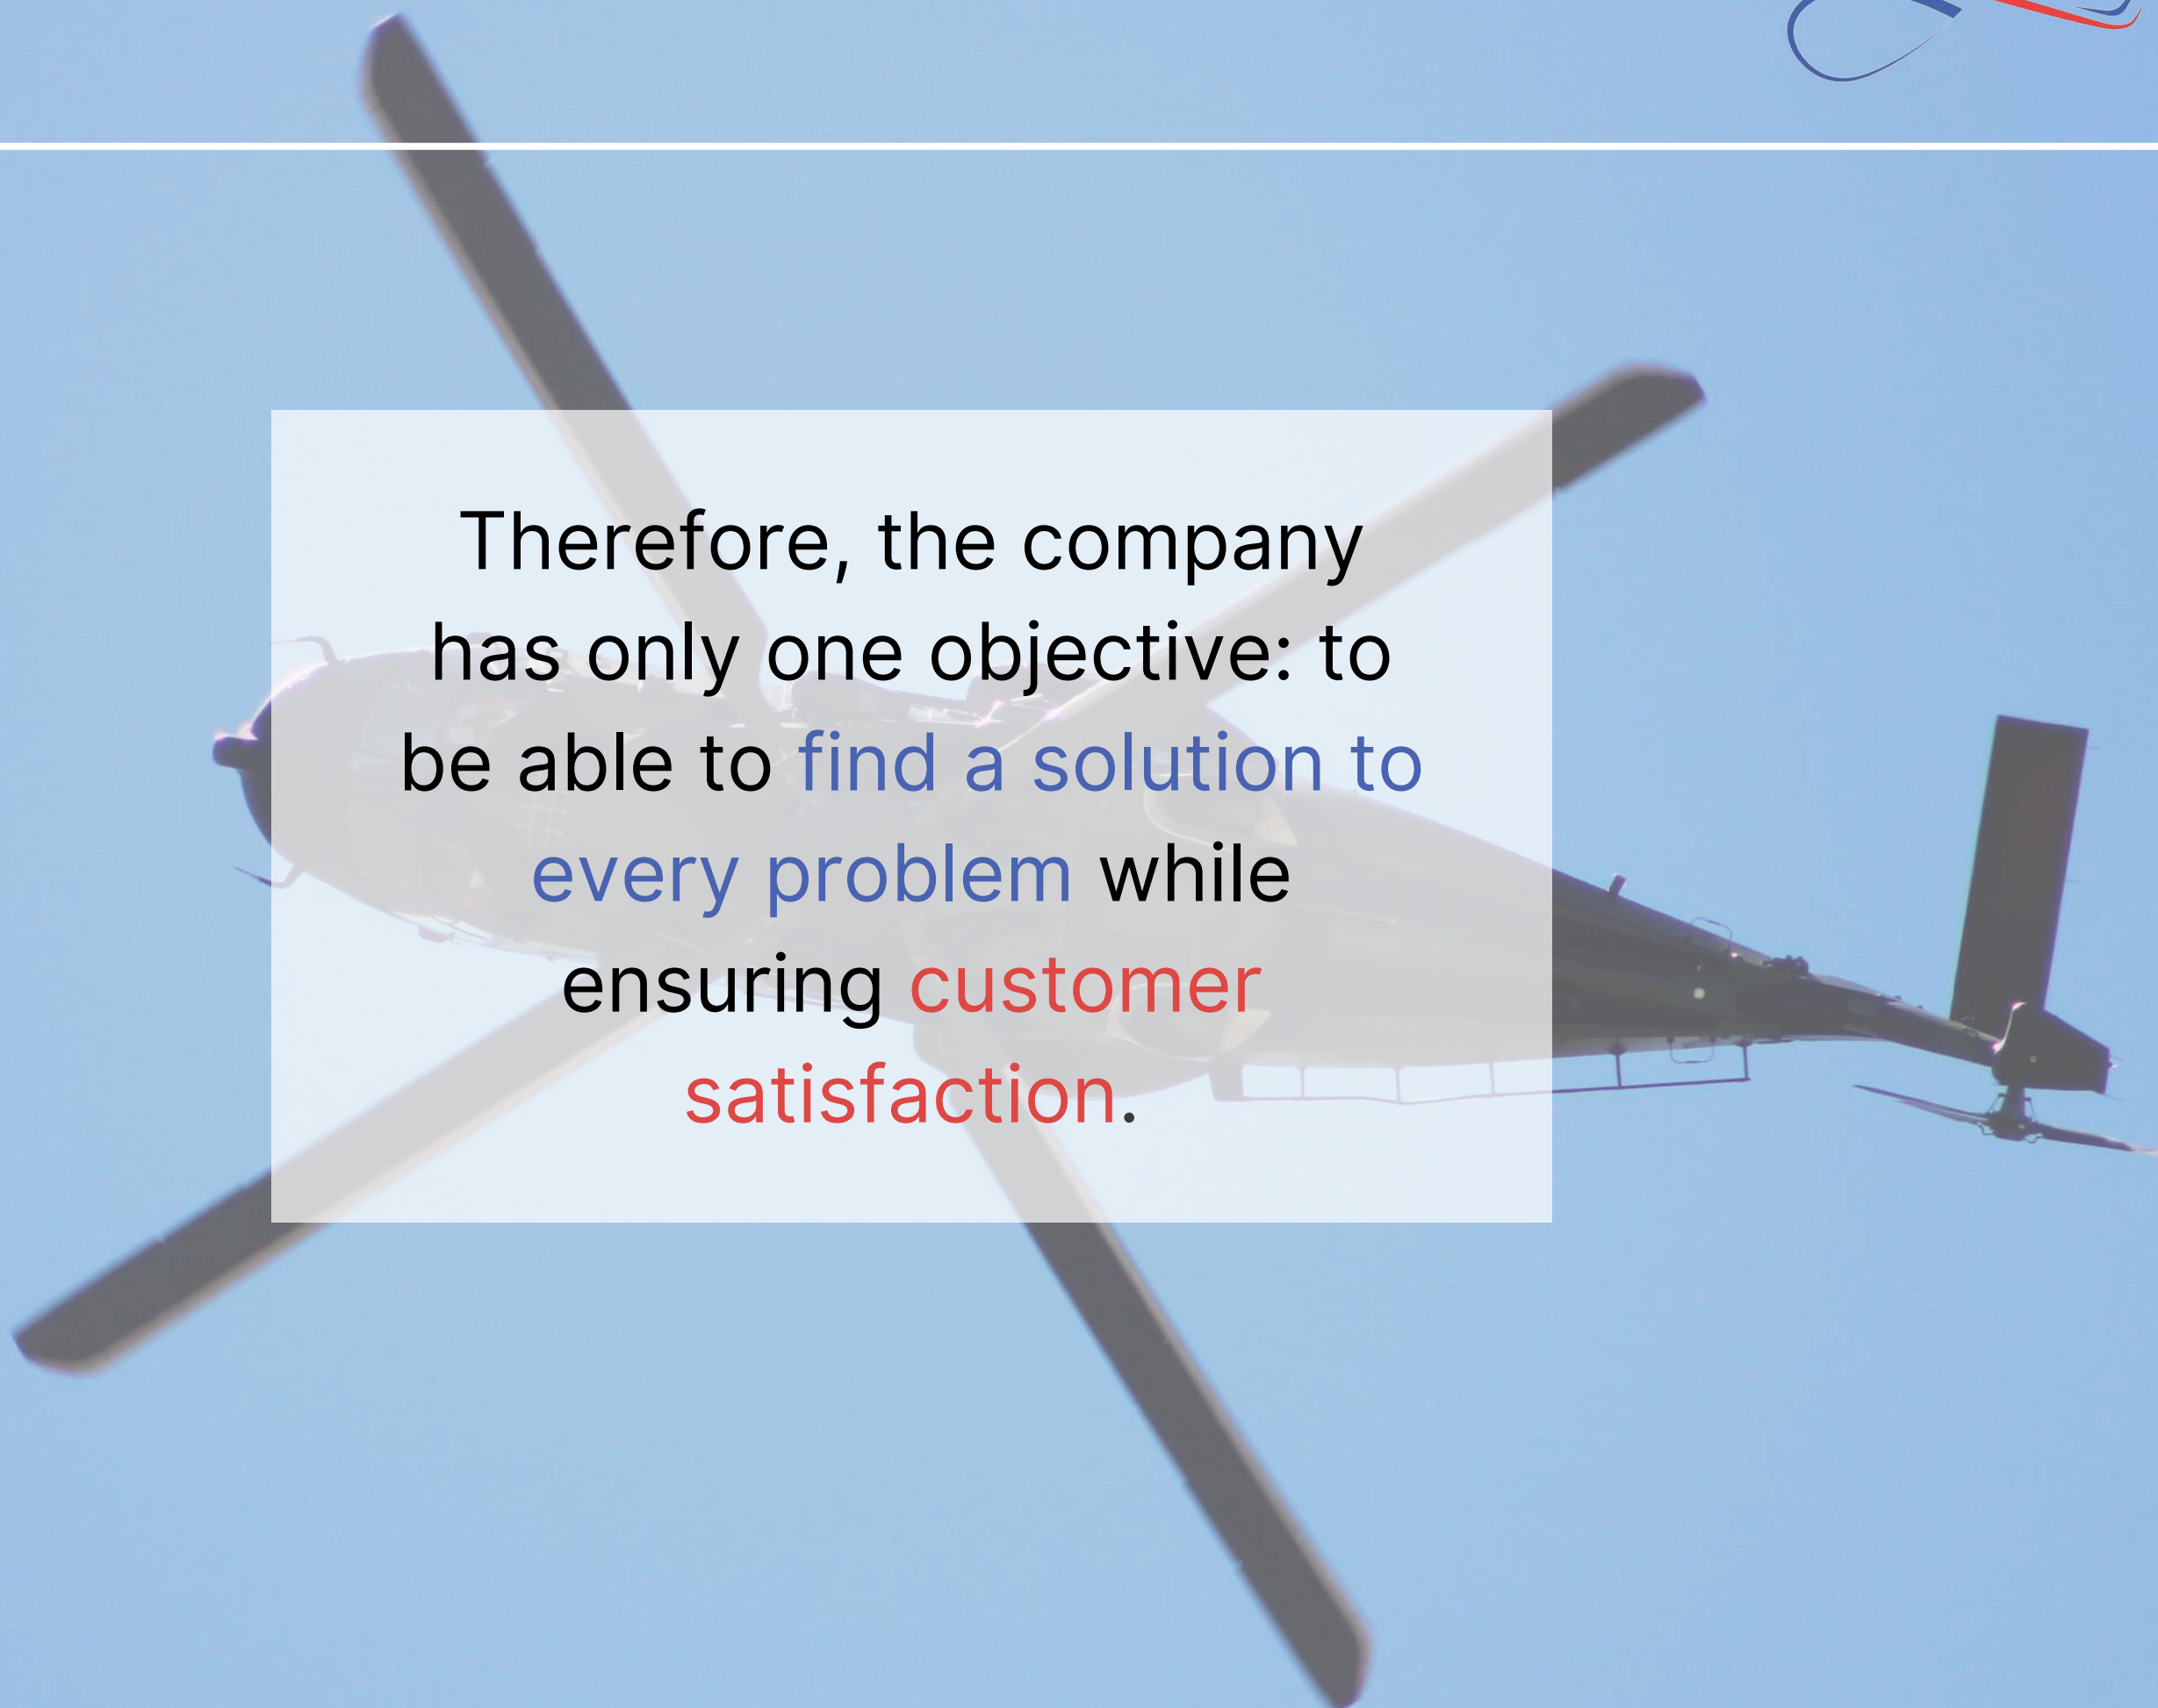

## 2004

# ABOUT US

---

## OUR VISION

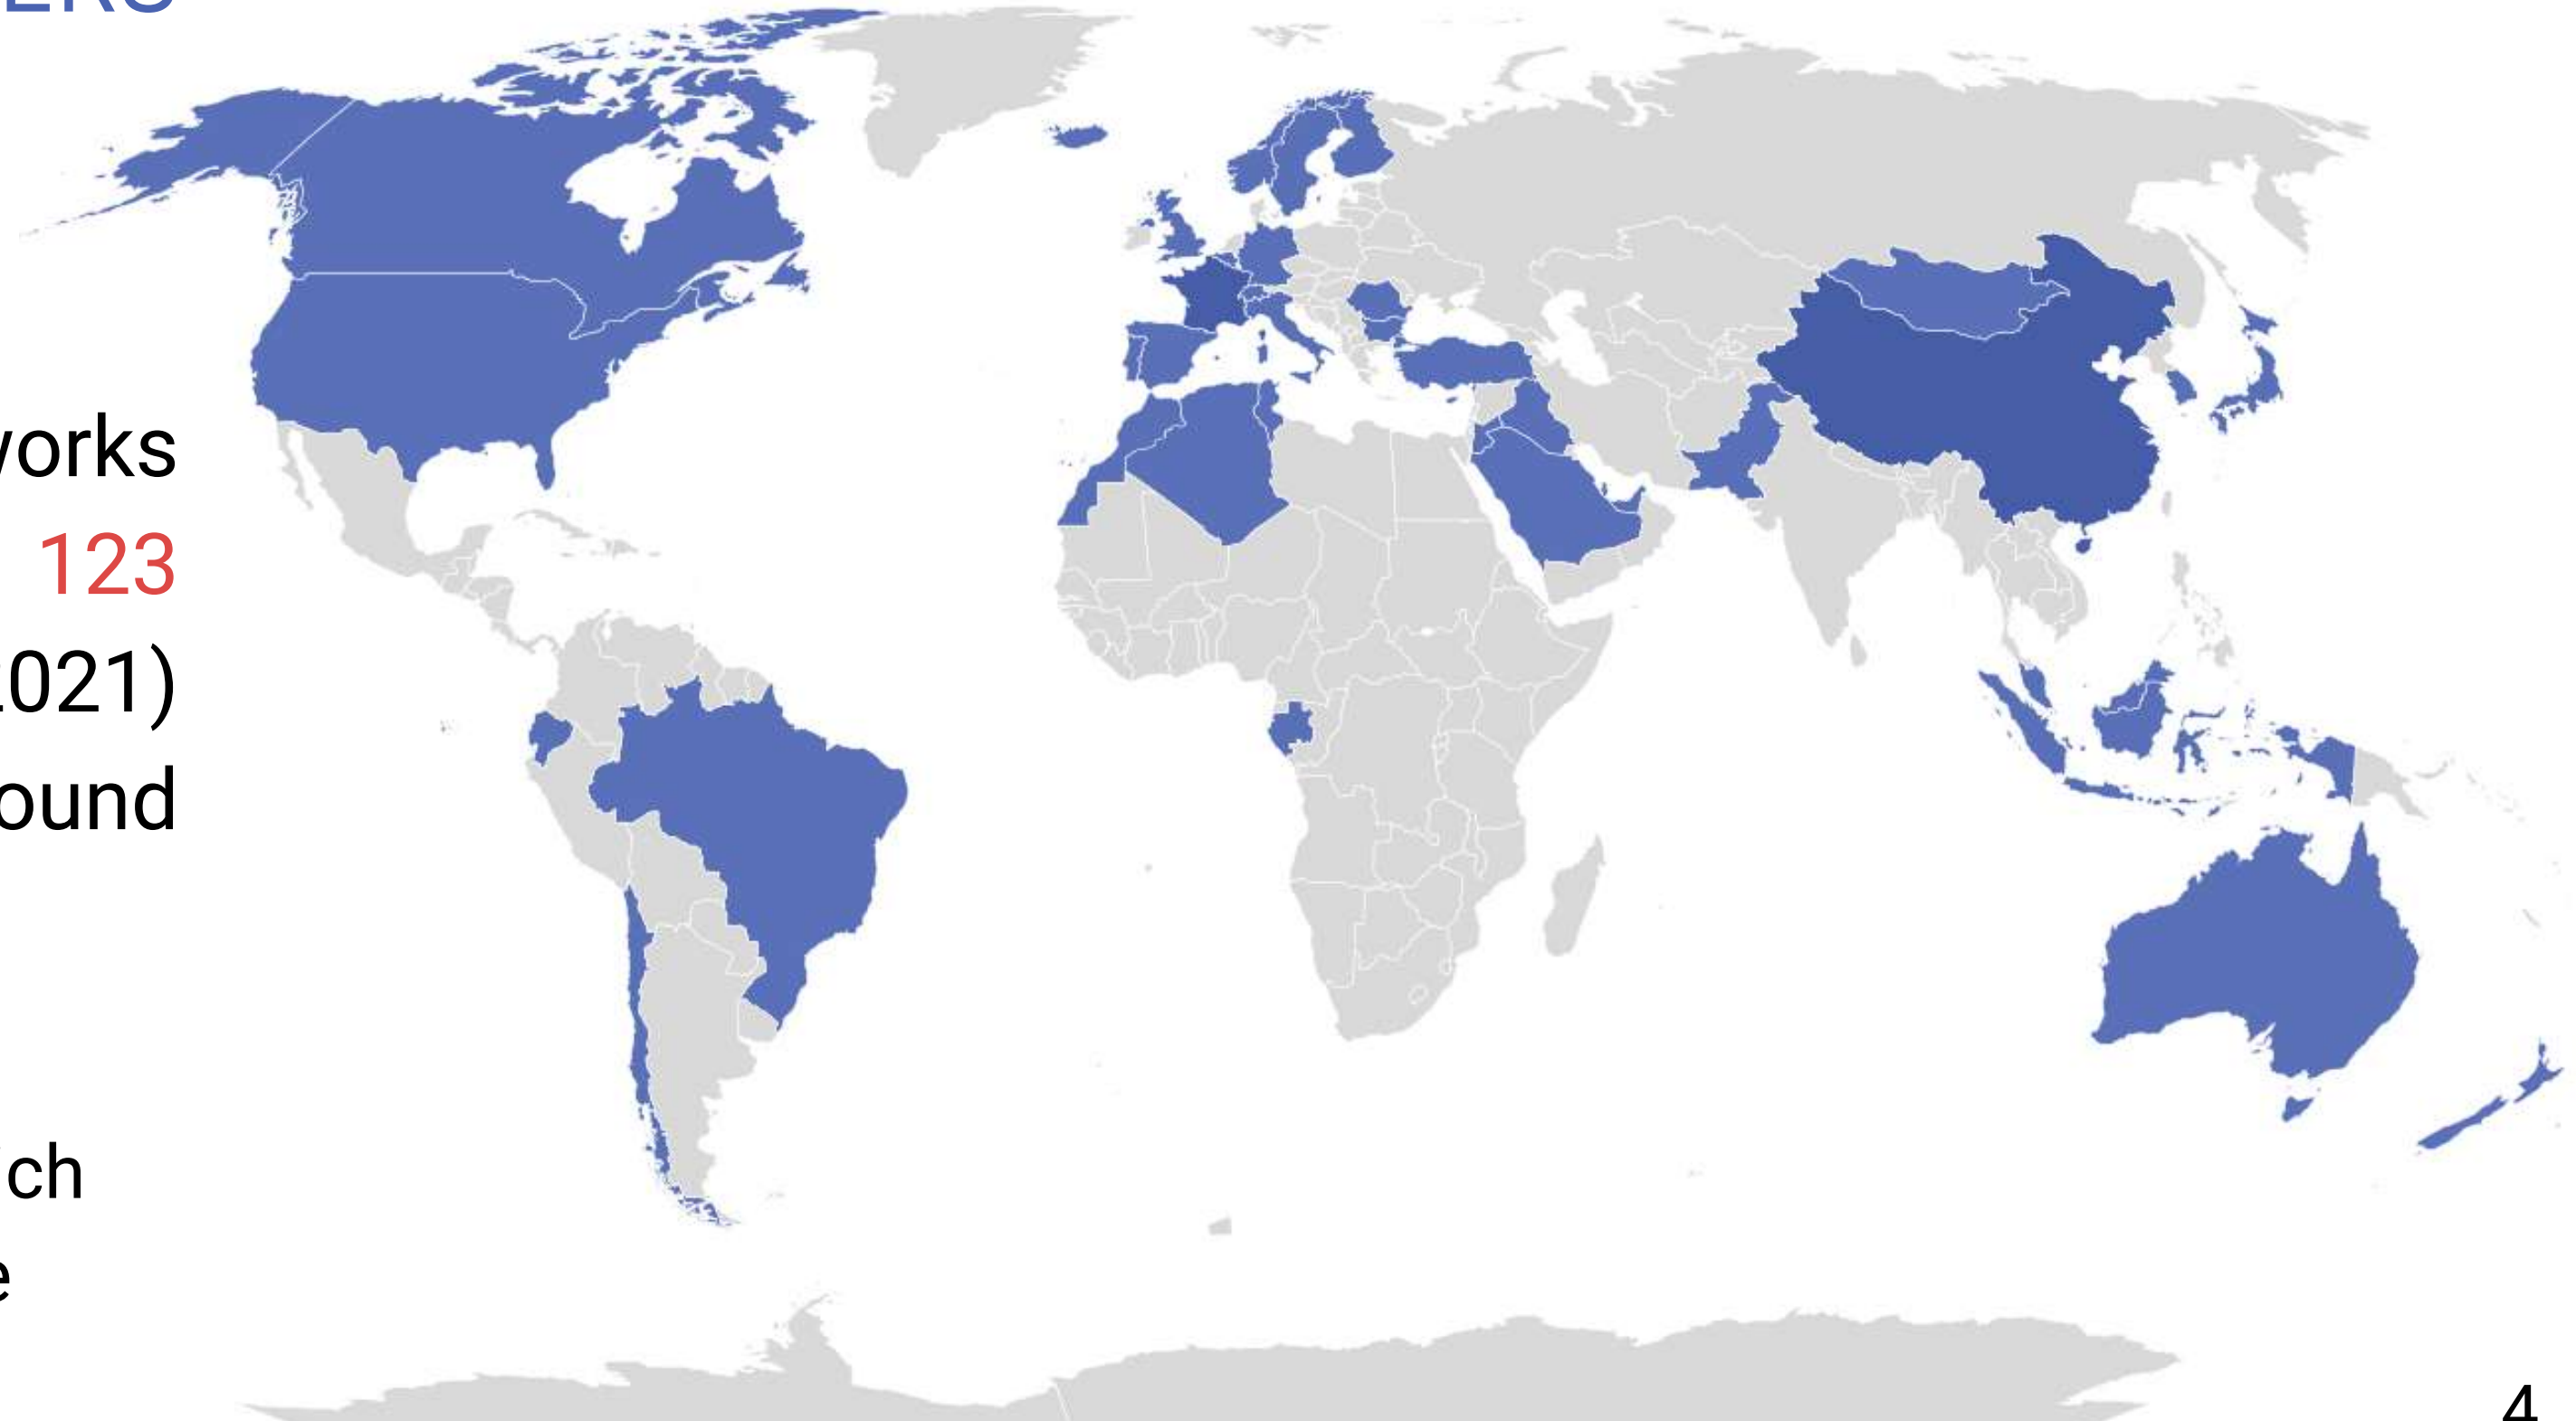

Therefore, the company has only one objective: to be able to find a solution to every problem while ensuring customer satisfaction.

## OUR CUSTOMERS

ISNL Aerospace works daily with nearly **123 customers** (end 2021) coming from all around the world.

 Countries in which our customers are

# OUR ASSETS

## OUR CERTIFICATIONS

Certified ISO 9001 since **2011**

Certified EN9120 since **2014**

Because quality is at the heat of the aeronautical industry, we put every effort that our spare parts are fit for purpose. ISNL Aerospace adheres to this approach to quality with the aim to meet our customers' quality expectations.

# OUR ASSETS

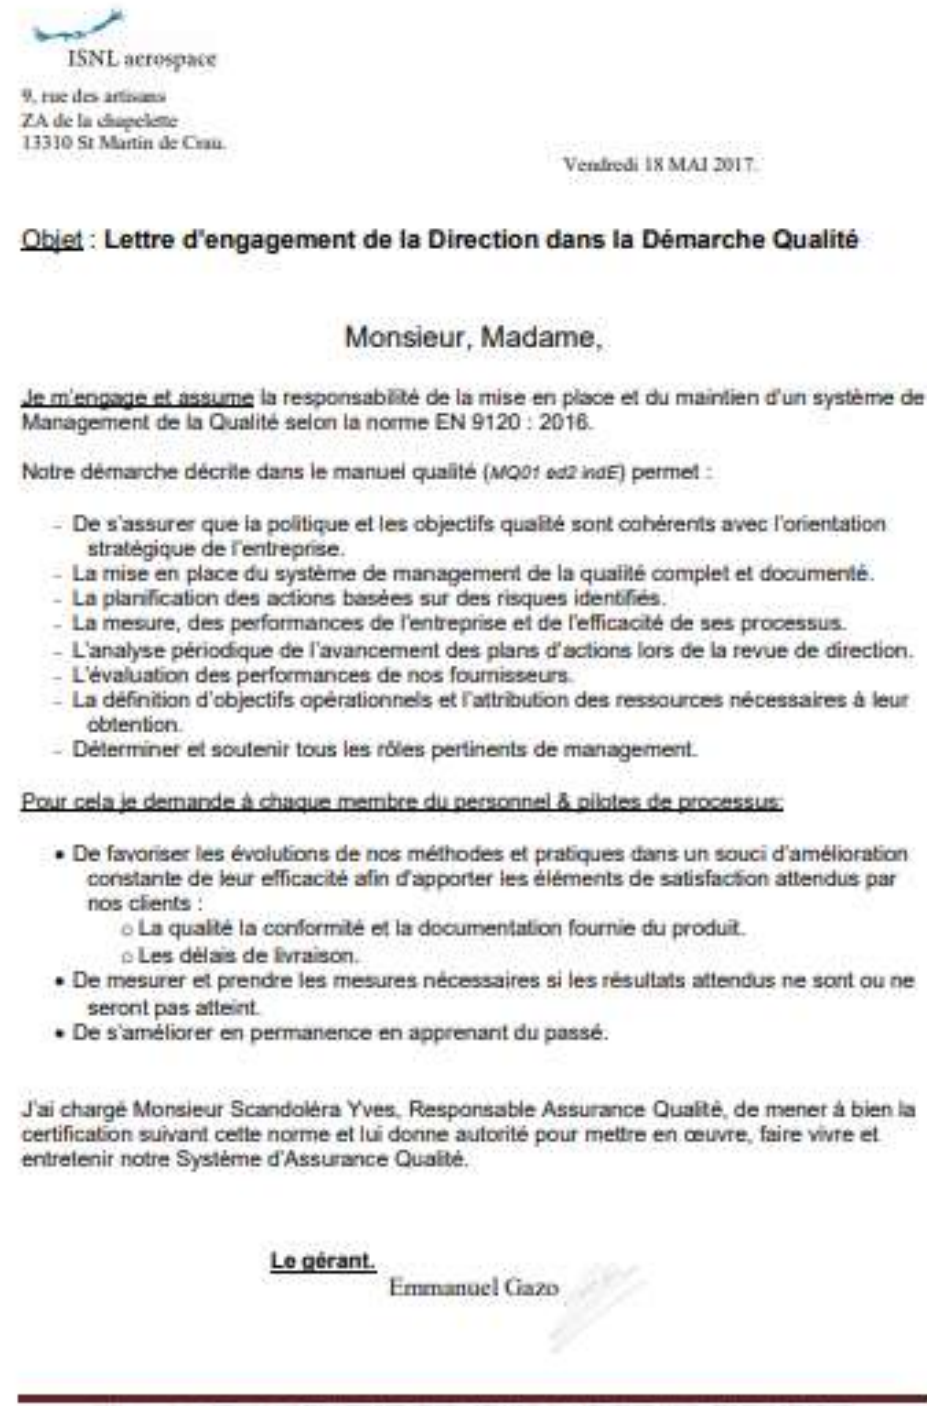

## OUR REACTIVITY

As reactiveness is a critical success factor in our industry, ISNL Aerospace has adapted its business processes to correspond exactly to the expectations of priority and urgency of our customers.

## ETHICS

ISNL Aerospace has an operational and efficient quality department. The company is also committed to meeting national and international standards.

All ISNL employees work closely together to ensure a healthy working environment.

# OUR ASSETS

---

## OUR LOCALISATION

Strategic location in Saint-Martin-de-Crau due to transport accessibility and location in the world

# OUR SERVICES

## OUR JOBS

ISNL Aerospace has **three major activities** :

Commercial and technical representation of French aviation companies in international markets

Brokering

Commercial and technical representation of international aviation companies in France market

# OUR SERVICES

---

## COMMERCIAL AND TECHNICAL REPRESENTATION OF FRENCH AVIATION COMPANIES IN INTERNATIONAL MARKETS

Through our international sales network with a strong presence in the emerging countries, ISNL enables access for our partners to an increasing share of the export market.

French manufacturers and SMEs in the aviation sector have already entrusted us to represent their interests outside of France.

We provide a sales interface as well as the entire chain of export formalities in order to allow our French customers to concentrate on their core business in France.

## BROKERING

In function of the expectations of our French or international customers, we can offer spare parts at the best cost with the shortest lead time.

In function of the degree of control and traceability which our customers require, we have a large stock of new or used spare parts, suitably priced for every project.

Our technical and sales manager provide the most appropriate solutions corresponding to our customers' requirements for even the rarest of spare parts.

# OUR SERVICES

---

## COMMERCIAL AND TECHNICAL REPRESENTATION OF INTERNATIONAL AVIATION COMPANIES IN FRANCE

We provide a sales interface and our import savoir-faire to European and international companies wishing to develop their activities in France. Moreover, we provide commercial, logistical and technical support to European and international companies.

We have storage facilities to simplify supply to your French customers. All our spare parts are configured and tracked in real time as well as being compliant with current regulations.

All these factor greatly reduce the lead time to reply to customer requests.
